Rambling Roommates
 By Eri "Godahl" Drury

Rambling Roommates is a collection of 54 card games, each of which require only a single card to play. The game was developed in bits and pieces throughout 2019 to 2025, and thus shows off Godahl's artistic progress over the years.

The games are divided into 6 sets of 9 cards each, with each set of 9 exploring a different design space, varying from simple fidget games to competitive multiplayer games to communal storytelling games. A wide variety of genres and styles is presented here!
